Report of the Superintendent

To the School Board of New Castle:

I herewith submit to you my first report as superintendent of your schools.

Upon entering my duties in New Castle I found here schools established on sound principles educationally. Teachers of ability and experience, two being residents of the town, were working whole-heartedly for the welfare of their pupils. The spirit of mutual confidence existing between parents and teachers, is, in great part, responsible for the success of New Castle's schools.

The scholarship has been rated by several approved and standardized tests such as are used throughout the United States. By these tests a uniformed standard is established and through their use we may be certain that our schools are doing creditable work. The testing program is being continued during the current year with a more specialized but equally reliable form of test. As we believe the fundamental subjects, reading and arithmetic, are the foundation of practical education these are receiving the bulk of school time and effort.

The chemical toilets of the Junior High school are, I believe, entirely satisfactory. Like toilets should be placed in the other building. The present arrangement is unsatisfactory to many of our citizens who realize that a real menace to health exists thereby. Hazards are encountered in the case of public buildings which are lacking under similar situations in private homes.

During the months of February and March of the current year an intensive drive to improve spelling is taking place. Special attention is being given this subject in all schools of the supervisory union. Both town and union spelling matches are to be inaugurated. These will be announced in advance and the presence of parents and friends will be an encouragement to the children.

Until such time as it is possible to build a modern school building, it seems that something must be done to relieve the crowded condition of the primary room. Not only is the room overcrowded but the low ceiling makes doubly necessary a more adequate lighting arrangement. The cross lighting which exists now can be rectified by windows in the rear.

In talking with those in charge of the High School to which our pupils go, I find that New Castle pupils rank well with those entering from other towns. Good as the academic work of our teachers is, I believe they are achieving results unsurpassed in character training. Your boys and girls are being taught honesty, self-reliance, initiative and perseverance. After all, isn't this the chief purpose of education.

I wish to express my appreciation of the kindly helpfulness of the school board, co-operation of the teachers and friendship of the boys and girls.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent.
